first servants and (2) their advances are not pays proper to the Romance Fund.

(11) I find to follow the reasoning here. That these men are first servants is true but I do not think that a new entrant direct to the Romance office can be called a post office servant in the present employ of Govt just as those who entered service under Govt and are now working in the Romance office. The fact that pay, leave allces, and pensions when such become payable are debited to the Romance Fund and not to the Jud Revenue would show that the Fund is separate from Govt. We certainly within the powers of the Committee to refuse passing H.B. advances to their employees altogether but when passed I submit it ought not be debited to the Romance Fund and not to Jud Revenue.

(12) Admitting for argument sake the reason not above, H.B. advances for officials whose are permanent Govt Servants but now work in the Romance office would be admissible on the pay that they drew when last on Govt employ but not what they draw now in the Romance office.

(13) The men in the Romance office since are on a kind of foreign service and the foreign employer ought to bear all charges. In the foregoing reasons I submit the resolution of the

At any rate, Govt has no right to advance loans out of the fund. If, on the other hand, the Insurance office be held to be part of a Govt office, the loans should be advanced & recovered for Govt generally. E.g. loans given to officials of the It Department are 1st debited & recoveries credited to It Revenue.

from the technical legal point of view. From the practical point of view there can of course be no risk to the Insurance Fund by granting these small advances. Even theoretically I am not sure that it would be wrong for Govt to sanction such loans from the Insurance Fund being allowed by the Committee.

(23) In this connection the file showing the history of H.B. advances to municipal employees may be put up for information. It has been declared by the Govt advocate that the grant of such advances from the Municipal Funds is against the Municipal Regulation & the practice had to be stopped. Not of course that there is no hard & fast law about the Insurance Fund.
